

Fundraising by Cuddra WI

The members of Cuddra WI had a splendid tea recently at the Carlyon Bay Golf Club and were well looked after by Paul and his team. The guest speaker was Sandra Francis of the St Austell Healthcare Patient Participation Group (PPG), who gave an update on the recent fundraising appeals to be acquire a bladder scanner. This is particularly important for patients who have limited mobility or are housebound and for whom a hospital visit would be stressful. The ladies were very generous in their personal donations, which were passed on to the PPG.
